## Objectives

The Vina Groundwater Sustainability Agency (GSA) Board, the GSA Management Committee, and the GSA Stakeholder Advisory Committee are committed to keeping the **public informed**, providing **balanced and objective information** to assist the public in understanding the Sustainable Groundwater Management Act (SGMA), and **creating an open process** for input on development and implementation of the Groundwater Sustainability Plan (GSP). The primary objective of this Communication and Engagement Plan (C&E Plan) is to identify and carry forward intentional, effective public outreach and engagement to facilitate widespread support and understanding of the GSP and its implementation. Additionally as part of GSP implementation, an important objective is to identify and engage underrepresented groups in the process using the [\*Guidance on Engagement and Communicating with Underrepresented Groundwater Users\*](#) developed by the California Department of Water Resources (DWR).

## Background

Signed into law in 2014, the purpose of SGMA is to ensure local sustainable groundwater management in medium- and high- priority groundwater basins statewide. The DWR has determined that Butte County has three priority subbasins that are subject to SGMA implementation:

## Butte Subbasin | Vina Subbasin | Wyandotte Creek Subbasin

This C&E Plan applies only to the Vina Subbasin Groundwater Sustainability Agency.

**SGMA Milestones:** The subbasin achieved the first milestone in SGMA by the establishing two Groundwater Sustainability Agencies: the Vina Groundwater Sustainability Agency (GSA), a Joint Powers Authority, comprised of three (3) member agencies: Butte County; the City of Chico; and Durham Irrigation District; and 2) The Rock Creek Reclamation District GSA. These two GSAs are coordinating to develop and implement one Groundwater Sustainability Plan (GSP) for the subbasin. The second major milestone in SGMA is the adoption of a GSP by January 30, 2022. The GSP is prescribed by SGMA and contains required elements. The third milestone is achieving sustainability by 2042.

Figure 1. SGMA Milestones

## Desired Outcomes & Goals of the Plan

**Outcomes:** The desired outcome of this C&E Plan is to achieve understanding and support for GSP adoption and implementation in consideration of the people, economy, and environment within the subbasin and in coordination with adjacent subbasins.

**Plan Goals:** SGMA requires the GSA to consider the interests of all beneficial uses and users of groundwater and encourage involvement of diverse social, cultural, and economic elements of the population within the subbasin during GSP preparation and implementation. The goals of the Communications & Engagement Plan are to:

1. **Enhance understanding** and inform the public about water and groundwater resources in the Vina Subbasin, the purpose and need for sustainable groundwater management, the benefits of sustainable groundwater management, and the need for a GSP.
2. **Engage diverse interested parties** and stakeholders and promote informed feedback from stakeholders, the community, and groundwater-dependent users throughout the GSP preparation and implementation process.
3. **Coordinate communication** and involvement between the GSA (Board, Stakeholder Advisory Committee and Management Committee), Rock Creek Reclamation District GSA, and other local agencies, elected and appointed officials, and the general public.
4. **Rely on the Stakeholder Advisory Committee** to facilitate a comprehensive public engagement process.
5. **Employ a variety of outreach methods** that make public participation accessible and that encourage broad participation.
6. Respond to public concerns.

7. Provide accurate and up-to-date information.
8. **Create public value and use GSA resources wisely** by managing communications and engagement in a manner that is resourceful and efficient.

**Time Period:** This C&E Plan is intended to cover communications and engagement for September 2021 through December 2023. In September of 2021, the GSA Board will release the draft GSP for a 60-day review. As required and planned, the GSA Boards will hold a formal public hearing(s) on the Draft GSP in the fall and then consider adopting the GSP in December for submittal to DWR in January 2022 as the law requires. This Plan will also support the first two years of implementation. Since this is a multi-year effort, the key activities needed to achieve these goals will be broken down into annual work plans, and may be amended, as needed.

**Interested Parties and other stakeholders:** SGMA calls for consideration of all interested parties that the GSA must consider when developing and implementing the GSP, including, but not limited to:

- Agricultural users of water
- Domestic well owners
- Municipal well operators
- Public water systems
- Land use planning agencies
- Environmental users of groundwater
- Surface water users
- The federal government
- California Native American tribes (see [DWR Guidance Documents](#)) for Tribal Outreach Guidance Document)
- Disadvantaged communities and historically underrepresented groundwater users (including those served by private domestic wells or small community water systems).

## Outreach Roles

The **Vina GSA Board** is comprised of elected officials from each of the member agencies and two stakeholder board members appointed by the Butte County Board of Supervisors, representing commercial agricultural and domestic well users in the subbasin. As required by the Joint Powers Authority agreement that created the GSA, the Board will consider the recommendations of the Stakeholder Advisory Committee.

In regard to outreach, the Board is responsible for:

- Adopting and overseeing implementation of the C&E Plan;
- Entering into Memoranda of Understanding with other public agencies such as Rock Creek Reclamation District GSA and Butte College to codify engagement activities for the development and implementation of the GSP;
- Receiving public comments made verbally and in writing;
- Considering the recommendations of the Stakeholder Advisory Committee.

In addition, the Board may choose to play a more active role in outreach through communication with the public, stakeholder groups, and the entities it represents.

The **Management Committee**, established by the Board, is comprised of at least one staff representative from each of the public agencies that are members of the GSA. As required by the Joint Powers Authority agreement, the Management Committee shall recommend agenda items, administer the Stakeholder Advisory Committee, establish and administer technical working groups, and bring staff reports before the Board.

In regard to outreach, the Management Committee is responsible for:

- Development and implementation of the C&E Plan with Board approval and oversight;
- Administering the Stakeholder Advisory Committee and ad hoc technical advisory committees;
- Documenting the recommendations of the Stakeholder Advisory Committee in staff reports to the Board.

The **Stakeholder Advisory Committee** is comprised of members appointed by the GSA Board. The Stakeholder Advisory Committee is charged with actively engaging with the public for input and feedback.

This charge will be carried out through various activities, but generally includes:

- Actively seeking input from represented stakeholder groups on groundwater-related issues before the GSA, as described in the [Vina SHAC Charter](#) adopted by the GSA Board;
- Sharing input and feedback at Stakeholder Advisory Committee meetings;
- Making recommendations to the Board.

When evaluating the options identified in the GSP and making decisions, the Board, Management Committee, and Stakeholder Advisory Committee will **solicit public input** through a range of methods, including public workshops, written and verbal comments, meetings with stakeholder organizations, and other opportunities. Input is always welcome and can be provided verbally during public comment periods at the Stakeholder Advisory Committee and Board meetings or in writing. Written comments can be sent to the Management Committee via the GSA website or email, which will be distributed to the Stakeholder Advisory Committee and/or Board, as appropriate.

## Communications and Engagement for GSP Planning and Implementation

To truly engage the public in development of a GSP that is science-based, complex, technical, and includes achievable outcomes, the GSA will strive to meet these overall objectives:

- Educate the public in meaningful ways. Communicate what may often be complex concepts in straightforward, comprehensible ways;
- Show how the input received has been incorporated into the plan or process; and
- Remain focused on results.

The GSA carried out community engagement during the development of the GSP, which included public meetings and presentation materials to inform the public. The GSP has been revised to incorporate public feedback. This C&E Plan builds on that foundation to now engage the community, interested parties, stakeholders, organizations, and agencies as the GSA Boards considers adopting the GSP and initiating GSP implementation. The GSA Boards will release the draft GSP for a 60-day public review period in September of 2021. The GSA will hold a formal public hearing(s) in the fall. Then, the Boards will consider adopting the GSP in December of 2021 for a January 2022 submittal to DWR. The Vina GSA and Rock

Creek Reclamation District GSA will hold joint board meetings, when possible, to conduct the formal GSP review and adoption process.

Implementing the GSP will begin at the end of January 2022. Implementation will involve advancing projects, addressing data gaps, monitoring, and developing additional needed projects as part of adaptive management. The GSA will prepare annual reports and provide five-year updates to DWR to demonstrate progress toward sustainability. Public outreach will inform each of these activities.

## Forums

### Member Agencies Governance Briefings

Member Agency board members may brief their councils or boards regularly on GSA activities and may work with the GSA Management Committee to provide additional briefings on sensitive or important topics.

### Stakeholder Briefings

Stakeholder Advisory Committee members will meet with and communicate regularly with individuals and organizations comprised of the stakeholder groups they represent. To promote consistent messaging, all briefings will be coordinated with the GSA Management Committee.

### Public Meetings/Hearing

Public meetings or hearings are formal opportunities for people to provide official comments on programs, plans and proposals. The Vina GSA Board meetings and the Stakeholder Advisory Committee meetings constitute regular public meetings that will be noticed and conducted in accordance with the Ralph M. Brown Act. SGMA requires that a public meeting be held prior to the adoption of a fee and that public hearings are held for the adoption of GSP elements and the final GSP plan. There are also constitutional requirements for public hearings for some fee/rate options. Public meetings and hearings are an important forum for people to share viewpoints and concerns, but often occur at the end of a process, when only one option is under consideration. The GSA will hold required public meetings and hearings, but will also use less formal public workshops to solicit feedback and information early in the process.

### Public Workshops

Public educational workshops provide less formal opportunities for people to learn about groundwater, SGMA, and GSP elements. Workshops can be organized in a variety of ways, including webinars, open houses, the use of “stations” where people can ask questions one-on-one, and traditional presentations with facilitated question and answer sessions. In order to solicit feedback from people who may not be comfortable speaking in public, workshops can include small group breakout discussions, comment cards and other techniques. Workshops will be designed to maximize opportunities for public input.

### Public Notices

Public notices, often required by law, aim to notify agencies and the public about activities that may affect the public. As outlined in this C&E Plan, the GSA will sponsor a variety of opportunities for people to participate in the development and implementation of the GSP, including workshops, public hearings, and providing comments at Board and Stakeholder Advisory Committee meetings, and through written comments. The agency will comply with public noticing requirements.

Prior to GSP adoption or amendment, SGMA requires that the GSA:

- Provide notice to cities and counties within Plan area
- Consider comments provided by the cities and counties
- Accommodate requests for consultation received from the cities and counties within 30 days
- No sooner than 90 days following public notice, hold public hearing(s)

In addition, when the GSA considers any fees to support implementation of the GSP, the GSA will provide public notice and other engagement activities.

## Tools

The Vina GSA will use a variety of communications and engagement tools to keep the public informed, including the following.

### Interested Parties List

The GSA maintains an interested parties list, consistent with SGMA requirements. The list is broad and includes anyone who would like to stay informed about SGMA activities. The Management Committee coordinates the distribution of periodic updates to the interested parties list. The GSA also relies on the list for sharing information on public workshops, public meetings, and other activities. Interested parties may sign up to receive email updates at the following link [[Access Here](#)].

Note, SGMA did not specify the type of list (email versus hard copy mailing) that should be used to inform interested parties. The first preference for information sharing is the email list to distribute information quickly and to reduce costs. In addition, the GSA may periodically distribute public notices in the form of post cards and/or published notices.

Member agencies, Board members, the Stakeholder Advisory Committee, and the Management Committee will encourage potential organizations, agencies, and individuals to sign up on the interested parties list.

### Informational Materials

Developing a variety of informational materials is critical to successful education and necessary to circulate consistent, accurate information. The Management Committee, with input from the Stakeholder Advisory Committee, may develop a range of materials, which may include:

- **Talking Points:** Clear, concise messages to be used by Board and Stakeholder Advisory Committee members and Management Committee when communicating with media, organizations, and stakeholders.
- **Milestone Fact Sheets:** For initiating the GSP and completion of elements of the GSP.
- **Periodic Updates:** As stated above, the Management Committee will coordinate on the distribution of periodic updates that can then be used by Stakeholder Advisory Committee for distribution to the groups and organizations they represent using existing communications tools, such as newsletters, social media, list serves, etc.
- **Newspaper Editorials:** Authored by the Management Committee, Board, or Stakeholder Advisory Committee members (after review and approval of the full Board, Advisory Committee and Management Committee) for submittal to local news sources.

- **Briefing Packets:** For milestone briefings to the public and stakeholders. Packets will include standard talking points, and other materials to assist in educational outreach and for soliciting feedback.

## Website

The Vina GSA website [[www.vinagsa.org](http://www.vinagsa.org)] is a tool for distributing and archiving meeting and communication materials as well as a repository for any studies, general information, and educational materials. The Management Committee coordinates to ensure that the website is updated on a consistent basis to ensure up to date, timely information. The website includes the following information:

- Home page: summary, calendar of meetings and events, highlighted topics
- Groundwater basics, SGMA background including links to existing sources of relevant information, such as <https://www.groundwaterexchange.org>.
- Vina Subbasin specific information
- Board of Directors information: Board members, agendas, meeting materials, and meeting recordings
- Stakeholder Advisory Committee information: Stakeholder Advisory Committee members, agendas, and meeting materials
- Library and GSP Chapters

## Mailings and Utility Bill Notifications

Individual member agencies may utilize postcards and include updates and relevant GSP development information in utility bills.

## Social Media

Existing Facebook, Twitter, Next Door and other emerging social media technologies may be leveraged to provide updates on milestone progress to interested parties.

## Surveys

Online tools, such as Survey Monkey, may be used periodically to gather stakeholder ideas and to provide feedback on key issues.

## Media Plan

The Management Committee will develop press releases and Public Service Announcements (if appropriate) at each milestone and for meetings and workshops. The press releases will be distributed to local and regional media and elected officials. See Appendix C for a media contact list.

## Outreach Partners

In addition to the communication tools listed above, the Vina GSA can partner with other organizations to ensure that it achieves its communications and engagement goals including. Other partners include, but are not limited to:

- a. Butte County Farm Bureau;
- b. [Rock Creek Reclamation District](#);
- c. The Groundwater Pumpers Advisory Committee (GPAC);
- d. Agricultural Groundwater Users of Butte County (AGUBC)
- e. Butte County Water Commission;

- f. Butte Environmental Council;
- g. Butte College;
- h. California State University, Chico;
- i. Upper Feather River Integrated Regional Water Management (IRWM) and the North Sacramento Valley (NSV) Integrated Regional Water Management (IRWM) group;
- j. Butte County Resource Conservation District;
- k. Chico Chamber of Commerce (calendar); and
- l. Service Clubs and other professional organizations.

## Intra- and Inter-Basin Coordination

For more information, please reference the [Inter-Basin Coordination Report](#) on the Vina GSA website.

### Intra-Basin Coordination

There are two GSAs in the Vina Subbasin: The Vina GSA and Rock Creek Reclamation District GSA. The Vina GSA Board of Directors entered into an agreement with Rock Creek Reclamation District specifying the parameters of the two agencies' coordination on the development and implementation of one GSP for the subbasin. Further, the Vina GSA Management Committee will coordinate with Rock Creek Reclamation District's designated representative(s) and the two GSAs will hold joint board meetings, when possible, to provide a shared venue for public engagement and to ensure basin-wide sustainability. The Vina GSA has also entered into a Memorandum of Understanding with Butte College to coordinate on GSP development and implementation.

### Inter-Basin Coordination

While inter-basin agreements are optional under SGMA, the Vina GSA participated in the development of the inter-basin coordination framework described in the Inter-basin Coordination Report, linked above, which will also be appended to the GSP. The GSA intends to coordinate on some level, with 11 subbasins in the Northern Sacramento Valley. During GSP development, the subbasins developed an inter-basin coordination directory, a technical information-sharing template, an outreach presentation, an outreach fact sheet, and an inter-basin coordination webpage and held regular inter-basin agency staff meetings. Management Committee staff established a framework for coordination during GSP implementation including information sharing, joint analysis and evaluation, coordination on mutually beneficial activities, coordination on communication and outreach, and an issue-resolution process which will be further developed and instituted during GSP implementation.

## Evaluation and Assessment

Any communication strategy should include opportunities to check in at various points during implementation to ensure that it is meeting the communication and engagement goals and complying with SGMA. These check-ins will occur as needed.

# Appendix A: Tribal Engagement in Butte County: Guidance Document

## Tribes in Butte County

There are four<sup>1</sup> federally-recognized Native American tribes in Butte County. Three of the four Native American tribes are located in subbasins subject to SGMA. The tribes include:

- Mechoopda Indian Tribe of Chico Rancheria – *located in Vina Subbasin*
- Concow-Maidu Tribe of the Mooretown Rancheria – *partially located in the Wyandotte Creek subbasin*
- Tyme Maidu Tribe of the Berry Creek Rancheria – *partially located in the Wyandotte Creek Subbasin*
- Enterprise Rancheria of Maidu Indians of California – *are not located in a subbasin subject to SGMA*

The KonKow Valley Band of Maidu Indians is also recognized by the County and the State and has applied for federal recognition.

Meaningful Tribal outreach, dialogue, and consultation is a shared obligation of all the GSAs in the applicable subbasin where Tribal lands exist. However, since Tribal lands are predominately in unincorporated portions of Butte County, the County will lead SGMA-related outreach and consultation efforts with the Mechoopda Indian Tribe.

## Outreach Conducted

During development of the GSPs, Butte County staff reached out to tribes in the County to discuss interest in participating as members of the Joint Powers Agreement (Wyandotte/Vina) or Advisory Committees within any of the three subbasins even those outside of tribal boundaries. The GSAs reserved a tribal seat within the advisory committee charters in Wyandotte Creek and Vina subbasins. To date, tribes are not participating in the JPA or Advisory Committee.

## Vina Subbasin Tribal Outreach

Butte County staff coordinated with the Mechoopda Indian Tribe of Chico Rancheria first through communications with the tribal chair and administrative officer in 2018 and later via in-person meetings with other tribal members and staff. The tribal chairman designated a tribal staff member to represent the tribe during GSP development and has elected to participate as a member of the Vina GSA Management Committee since 2019. As a Management Committee member, the tribal representative participates in Management Committee, Board meetings and Vina Stakeholder Advisory Committee meetings. The purpose of this informal engagement is to maintain consistent coordination with the Tribe and identify opportunities for longer-term collaboration during GSP implementation.

## Appendix C: Outreach and Engagement Meetings already Conducted

The GSA has engaged in a range of public engagement activities since GSA formation in 2017, including maintaining a website, monthly newsletters, and numerous public meetings. The GSA also sent post cards to all domestic well owners to raise awareness about SGMA and GSA planning. Lastly, here is the list of meetings that have taken place since forming the GSAs as the Groundwater Sustainability Plan has been developed.
