1

Overview and Updates

- Focus of Periodic Evaluation is to address DWR Recommended Corrective Actions (RCAs)
- LWA is current drafting sections of the PE
- May – August will be important decision-making months
- Important webpage to track current topics and resources:
 - <http://www.vinagsa.org/gsp-periodic-evaluation>
- Interactive Map available – new layers to be added soon
 - <https://www.vinagsa.org/read-the-groundwater-sustainability-plan-gsp>

Status Update re Direction from Vina & RCRD GSA Boards

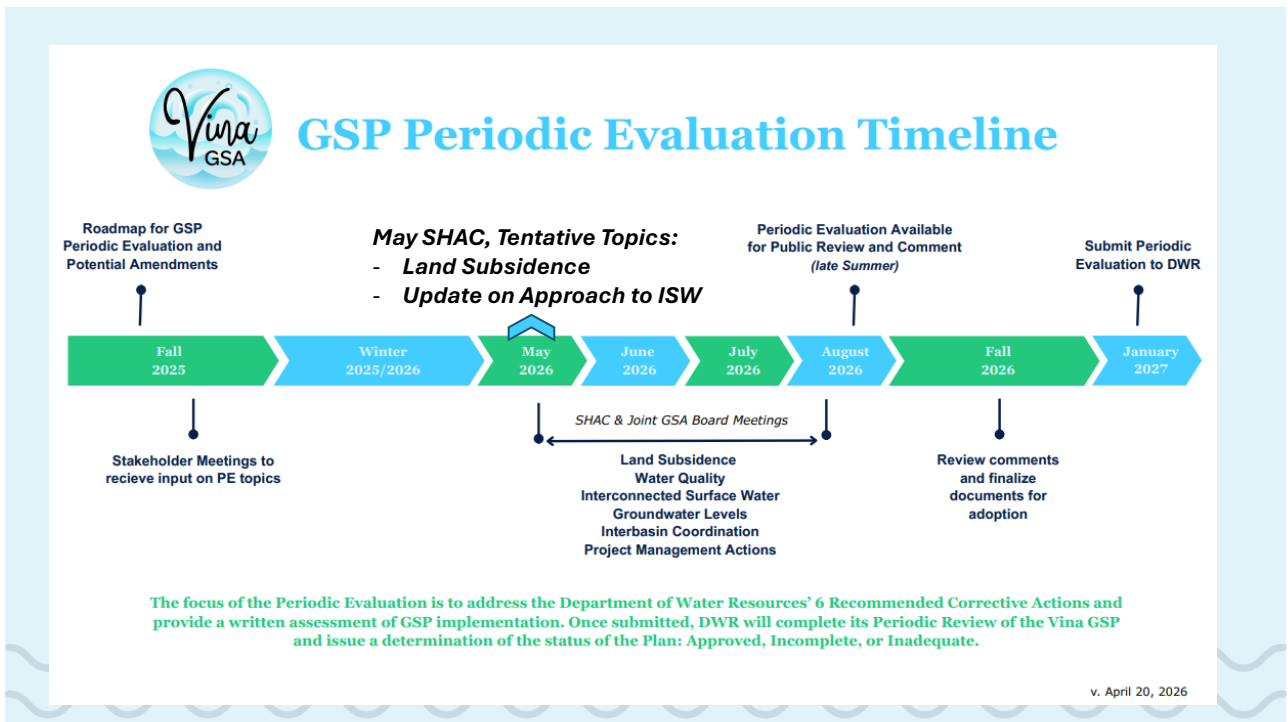

Excerpt from December 10, 2025 Meeting Minutes:

Joint Boards Direction: The GSA Boards jointly directed staff to come back in the future with information regarding the following topics:

- Today! {
- 1) Domestic Well Registry – information regarding what others is doing related to well mitigation and well registries for domestic wells to inform an initial framework for the Vina subbasin,
 - 2) Minimum Threshold Domestic Well Impact Analysis – Prepare summary of the number of domestic wells impacted at MT levels using the GSP dataset (2022) of domestic wells and using the 2025 refined dataset of domestic wells.
 - 3) Create a matrix outlining DWR mandated changes to the Vina GSP, DWR recommended changes to consider modifying or responding to data gaps, and stakeholder suggested concepts that are modifications to the GSP.
 - 4) Bring back more information regarding an Interconnected Surface Water Network and potential changes to the Groundwater Level Network.

In addition, the Boards requested that staff provide information about what neighboring subbasins are doing related to these topics.

The screenshot shows the Vina GSA website with a dark blue header containing the logo and navigation links: Home, About Us, Managing Our Groundwater, Get Involved, Library, and Calendar. A search bar and social media icons are also present. The main content area features a featured article titled "Feasibility of Enhanced Recharge in the Lindo Channel" with a sub-heading "Feasibility Report now Available:". Below the title is a link to the report and a circular icon depicting trees and water. The article text describes the study's purpose and provides contact information for comments. A sidebar on the left lists various project categories like "MANAGING OUR GROUNDWATER" and "SGM GRANT PROJECTS".
